However, while the international expansion reaches daily new records, the risks for international business remain and should be considered seriously. The risks of international business are from different types and include economic, political, manufacturing, currency, and transport risks. For export transactions risk analysis of buyer and buyer's country plays an important role. Based on a thorough risk analysis, terms of payment and terms of delivery in the contract of sale could be developed. Thereby, country risks of Lebanon, Russia and Turkey are appraised using SWOT analysis. Furthermore, differences between political and commercial risks are studied. In addition, pros and cons of repaying of company's loan in Euro or Swiss Francs are assessed. Finally, the possibilities of money transfer inside Europe and to the US are illustrated.
