

Beginning Android Wearables

Filesize: 9.7 MB

Reviews

Simply no words to explain. It really is basic but shocks from the fifty percent of the ebook. I am just happy to explain how this is the finest pdf we have read within my personal life and could be the best ebook for possibly.

(Blair Monahan)

BEGINNING ANDROID WEARABLES

Apress. Paperback. Condition: New. 512 pages. Dimensions: 10.0in. x 7.0in. x 1.2in. Beginning Android Wearables gives you the skills you need to make effective apps for Android Wear-based smartwatches, fitness bracelets, connected home wearable controllers, and Google Glass. Delight your users by giving them access to the information they'll need at the tips of their fingers. This book is very practical and contains many examples that not only show you how to write code for Glass and Android Wear, but also demonstrate how to apply this code in the context of an app. What you'll learn: Build notifications for handheld apps that are automatically shared with wearables, and learn to customize these notifications. Create apps that run directly on Android Wear devices and leverage the Android Wear SDK. Use the wearable UI library to build effective user interfaces for Android Wear. Use the wearable data layer API to share and synchronize data between a handheld device and Android Wear. Build custom watch faces for Android Wear. Build Glassware (that is, apps for Glass) using the Glass Development Kit (GDK). Utilize location providers and orientation sensors to build contextually sensitive apps. Who this book is for: This book only requires basic knowledge of Android programming. Prior to this book, you should have read or are at least comfortable with Android after using Apress tutorials, Android Apps for Absolute Beginners or Beginning Android. Table of Contents: Part I - Introduction 1. Introducing Android Wearables Part II - Notifications 2. Reviewing Notifications for Android 3. Customizing Notifications for Wearables Part III - Android Wear 4. Running Apps Directly on Android Wear 5. Android Wear UI Essentials 6. The Wearable Data Layer API 7. Creating Custom Watch Faces Part IV - Google Glass 8. Running Apps Directly on Glass 9. Glass User Interface Essentials 10. Voice and Input 11. The Camera: Taking Pictures and Recording Video Part V - Android Wear and Glass 12. Location...
