

Iowa'S Forests 1999-2003 Part a (Paperback)

By United States Department of Agriculture

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Iowa s landscape is dominated by agriculture, but beyond the fields of corn and soybeans lie 2.7 million acres of hardwood forests owned largely by 138,000 private landowners. Iowa s forests provide critical wildlife habitat, conserve our valuable soils, and protect our streams, rivers, and lakes. Iowa s forests employ over 20,000 lowans in the wood products industry, providing over \$1 billion in annual economic activity. Our forests provide boundless opportunities for outdoor recreation, from hunting and fishing to camping and hiking. What lowan can resist the brilliance of Iowa s trees in fall color, the fragrance of spring wildflowers in bloom, the shade of a strong maple tree in the summer, or the warmth of wood stove burning native oak during an Iowa winter day?.
