Nova Science Publishers Inc, United States, 2014. Paperback. Condition: New. UK ed.. Language: English . Brand New Book. Only a small fraction of the impaired drivers who are at risk for alcohol-impaired-driving crashes are arrested. These include drivers who drink regularly or occasionally to intoxication before they drive. Researchers have estimated the probability of being arrested while driving while intoxicated (DWI) with a blood alcohol concentration at or above .10 g/dL to be about 1 in 200. This book provides an overview of the use of Screening and Brief Intervention (SBI) as a countermeasure for those who have displayed, or could potentially display, harmful/hazardous drinking behaviours, including drinking and driving.
