Imagine, by the time anyone takes notice or you hear about a warning on the news, the beginning of the apocalypse is already past the stage of what people are thinking is a few isolated cases. No, by the time word reaches you, it s already a global pandemic. You ve noticed a few things were off in your daily routine, but you were not suspect of anything larger. Worst of all, you weren t prepared. You re stuck downtown at work with a 1 hour commute at the least when there isn t a widespread panic, between your wife at home and kids at school. It s pretty much a worst case scenario for you and you re not ready. At best you have some band aids and jumper cables in your truck at work and you re potentially hours away from the rest of your family who are also separated and equally unprepared. What is actually happening? Is it an outbreak? Disease? Contagion? Will the authorities get a handle on it? Do you stay or do you go? Where do you go? How far and for how long? What should you bring? You need to make some important decisions and you need to make them extremely fast. This short manual will tell you: -How to Prepare Yourself and Keep Your Family Safe During a Zombie Apocalypse -An Introduction To The Threat -Zombie Virus and Its Effects -Basic Zombie Survival Skills - How to Defend Yourself From Zombies -Where Should We Take Shelter in the Event of a Zombie Apocalypse?
