The man and the axe were alike visionary and unreal, though it needed a very considerable effort of the will to hold them at mental arm s length. I had work on hand which imperatively demanded to be finished, and I was so broken down by a long course of labour that it was a matter of actual difficulty with me when I sat down at my desk of a morning to lay hold of the thread of last night s work, and to recall the personages who had moved through my manuscript pages for the past three or four months. The day s work always began with a fog, which at first looked impenetrable, but would brighten little by little until I could see my ideal friends moving in it, and could recognise their familiar lineaments. Then the fog would disperse altogether, and a certain indescribable, exultant, feverish brightness would succeed it, and in this feverish brightness my ideal friends would move and talk as it were of their own volition.
