STUDY OF UNIT SELECTION TEXT-TO-SPEECH SYNTHESIS ALGORITHMS

Condition: New. Publisher/Verlag: Éditions universitaires européennes | This book focuses on the automatic speech synthesis field, and more specifically on unit selection. A deep analysis and a diagnosis of the unit selection algorithm (a lattice search algorithm) is provided. The importance of having the optimal solution is discussed and a new unit selection implementation based on a A algorithm is presented. The IRISA TTS system, built for the study, is also presented. Three cost function enhancements are also presented. The...
