The term was also applied to a board or table on which mathematicians drew diagrams. The abacus, as at present used to instruct children in the use of numbers, consists of a number of parallel wires on which beads are strung, the upper wire denoting units, the next tens, c. Abbey or Monastic Schools. - There were two kinds of schools under the direction of the monasteries: (1) schools almost exclusively devoted to the higher education of novices rid those who, having completed their probation, had taken the vow; (2) schools distinct from these, in which instruction, either gratuitous or on payment, was given to children of all classes of society living in the neighbourhood of the monastery. The former were the prototypes of the collegiate schools, or colleges, which developed into the colleges at Oxford, Cambridge, and, later on, those at...
