This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Now Madriani is faced with daunting ballistics evidence: a so-called double tap -two bullet wounds tightly grouped in the victim s head, shots that could have been made only by a crack marksman. Paul s client, Emiliano Ruiz, is an enigma--a career soldier who refuses to discuss his past though it is clear that he is a battle-tested pro. Ruiz is accused of killing a beautiful businesswoman and guru of a high-tech software empire catering to the military. A key to the case: the murder weapon is one used solely in special operations, where the double tap has become the signature of the most skilled assassins. Ruiz is sitting on secrets--there s a seven-year gap on his military resume, for which Madriani can find no details. And, more troubling, he discovers that the victim and her company were involved in a controversial government computer program designed to combat terrorists. Madriani finds himself in a deadly legal quagmire--with a client who is unwilling to cooperate and prosecutors who stonewall his every question about the victim s shadowy business and his client s past. Finding justice, and the unvarnished truth, has never been so elusive--or so dangerous.
