CHRONIC RENAL FAILURE

Hardcover. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Hardcover Pages Number: 430 Language: Simplified Chinese Publisher: China Union Medical University Press; 1st edition (January 1, 2003). Chronic renal failure is common to endanger people's health and life. In recent years, due to the secondary nephropathy, such as II diabetes mellitus, older kidney disease, such as the incidence of an increase, the incidence of chronic renal failure there is an upward trend, a few years ago the United States, for example, an annual increase of about 10%. In 1995, the country's advanced dialysis patients was 304 000, a year's treatment costs about U.S. \$ 13 billion, compared with \$ 14.45 billion in 1998. China's population more than the United States, and so on, the seriousness of the problem, one can imagine. In the 1970s, the human awareness of the disease, the main stay in the observation and pathological description of the clinical manifestations of the disease, in the treatment of performance for the powerless to take so-called correct syndrome when entering end-stage renal failure, renal replacement therapy. The late 1970s to early 1980s, human beings come to realize that the disease early and mid-term prevention and treatment is critical, and confirmed that some measures to prevent the disease is progressive deterioration of the role. Therefore, the prevention and treatment of chronic renal failure, and quickly became a prominent issue for kidney disease research. More than 20 years of kidney disease academics working in this area, including basic research or clinical prevention has a lot of progress. Beijing Union Medical College Hospital to do some work, especially the emphasis on prevention and treatment of early and mid point of view, we proposed earlier, and abroad in recent years with...
