Reviews

An exceptional ebook along with the typeface employed was intriguing to see. It really is simplistic but surprises within the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

Shearsman Books, United Kingdom, 2012. Paperback. Book Condition: New. 228 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.Where poetry is dominated by amateurs, its key ideas are the ones that nobody owns. Underneath the glittering cavalcade of conscious and innovative art is another world of poetry without technique, protected from change. Can we find a history of what seems to be most inaccessible to time? Can we write a history of the unheard voices, articulate the unconscious and write a stylistics of the conventional? Most people who write poetry are untouched by theory and have no expectations of winning prizes. Is there a much deeper, inarticulate, pulse of style history, almost detached from reflexivity and concealed from view by an elite who write directly from theory? The 1950s now seem like a mystery, only remembered as the factory which produced all the rebels of the succeeding two decades. But its rejection of rhetoric opened the gates to the amateur poet, its existential preoccupation with authenticity gave the unknown poet a chit to justify writing for and about themselves alone. It seems as if the 1950s have never stopped. The return to them is an attempt to crystallise the unchanged, the underlying stock of linguistic practices which was damaged by all the changes that washed over it but was finally intact, indifferent, unlearning. A kind of safe world where dissidents didn't rush in to subvert the text at every minute and where there was a comforting shared feeling among literary people. An era of naivety, virtue-and Close Reading. Did Pop and protest poetry come out of the Church's inner crisis on discovering that urban youth had given up church-going and that its noble oratory seemed irrelevant to social issues? Existentialism looks at the...
