## MODELING OF ORGANIC HETEROCYCLIC MOLECULES USING QSAR/QSPR ANALYSIS

Condition: New. Publisher/Verlag: Noor Publishing | With the rapid development of computer science and theoretical quantum chemical studies, it can speedily and precisely obtain the quantum and non-quantum chemical parameters of compounds by computation. These structural parameters along with the introduction of the quantitative structure activity/propriety relationship QSAR/QSPR models, used to investigate the relations between molecular descriptors of a set of compounds and their biological activity or chemical property, can increase the interpretability and predict the activity/propriety of new organic...
