Taylor Francis Ltd, United Kingdom, 2013. Paperback. Book Condition: New. New.. 196 x 130 mm. Language: English . Brand New Book. People rarely stop to think about where the energy they use to power their everyday lives comes from and when they do it is often to ask a worried question: is mankind's energy usage killing the planet? How do we deal with nuclear waste? What happens when the oil runs out? Energy: The Basics answers these questions but it also does much more. In this engaging yet even-handed introduction, readers are introduced to: \* the concept of energy and what it really means \* the ways energy is currently generated and the sources used \* new and emerging energy technologies such as solar power and biofuels \* the impacts of energy use on the environment including climate change Featuring explanatory diagrams, tables, a glossary and an extensive further reading list, this book is the ideal starting point for anyone interested in the impact and future of the world's energy supply.
