

9787118082647 motion detection and tracking in computer vision(Chinese Edition)

Filesize: 6.96 MB

Reviews

This book can be worthy of a read, and much better than other. It usually fails to charge a lot of. I realized this publication from my dad and i encouraged this pdf to understand.

(Prof. Flo Cruickshank DDS)

9787118082647 MOTION DETECTION AND TRACKING IN COMPUTER VISION(CHINESE EDITION)

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date :2012-09-01 Pages: 102 Publisher: National Defence Industry Press title: computer vision. motion detection and tracking Original Price: 40.00 yuan Author: Xu Jing. Fang Ming. Yang Huamin Publisher: Defense Industry Publishing Date :2012-9-1 ISBN: 9787118082647 Words: 117.000 yards: 102 Edition: 1 Binding: Paperback: 16 Weight: Editor's Summary Xu Jing. Fang Ming. Yang Huamin ed computer vision motion detection and tracking is divided into six chapters. the first chapter describes the classification of movement. motion analysis model in the field of computer vision. computer vision field movement detection and target tracking technology Research in the field of computer vision and motion analysis technology difficulties content; second chapter describes the motion detection and target tracking algorithms. including background subtraction method. interframe difference method. optical flow field assessment algorithm; Chapter III introduces a periodic motion feature low-speed target motion detection and tracking algorithm CCD measuring system. for example the introduction of the application of the algorithm; fourth chapter describes high-speed moving target identification and tracking algorithm. and capture and tracking system as an example to introduce the application of the algorithm to the laser communication Shixin standard light; fifth chapter target motion detection process complex background using optical flow algorithm. including the regularization of the relevant characteristics of its assessment algorithm to improve the optical flow field. and describes the specific application of the algorithm to improve the optical flow field; Chapter 6 describes complementary voting method achieving trust motion vectors estimated. Contents Introduction 1.1 Classification of movement 1.2 computer vision. motion analysis model 1.3 computer vision motion detection and target tracking technology Research 1.4 computer vision motion analysis of the technical difficulties of 1.5 book chapters Introduction Chapter Two traditional motion...
