Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.For most learners of the Chinese language, two kinds of tools are essential for them: one is a dictionary, and the other is a grammar book. If we think of the learning process as building a house, a dictionary represents the utilities and features of the raw materials for construction, while a grammar book shows the principles and methods for how to build a house with the materials. Interesting, practical, and unique are the right words for describing this grammar book. This book not only introduces the fundamental knowledge about the Chinese language but also, and more importantly, reveals the reasons behind the principles and rules, which helps learners to understand this language and apply the grammar rules well. This grammar book actually gets learners out of the boring elements, such as excessive memorizing and drilling, for learning a new language, and it helps learners to create the correct the words and sentences similar to what they do in mathematical calculations. Only in this way can learners radically accelerate their learning process and get more fun from learning a new language. Easy and Plain There are almost no obscure linguistic concepts or professional terms included in this book, so readers do not need to have any special background knowledge. This book is written in the style of daily language, and readers will find it very user-friendly. Simple but Profound The content is developed from a totally new angle basing it on the common sense of people and extending not only the phenomena and basic grammar rules but also the reason and mechanism under the surface. Readers can easily understand the rules and then apply them much more freely. Vivid and Intuitive Many charts...
