CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 32 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. Changing the industry's supply chain behavior will go along way in helping the industry adapt in this low price environment. Putting it succinctly, Shell's Harry Brekelmans called on today's industry leaders to re-forge the links of supply chains to hammer out inefficiency, overpricing and arbitrariness. The fact sheets on the new rule to curb methane emissions from the oil and gas industry- not limited to oil well sites but also at Natural Gas Transmission Compressor Stations, Natural Gas Production Gathering and Boosting Stations and Natural Gas Well Sites. The requirements the industry needs to put in place to find leak and repair pumps and compressors among all other technologies such as the optical gas imaging technology etc. This makes this edition a must read for all industry players and supply chain. Still on regulations, the timeline for the well control safety rule is also out - we also have an independent organization to throw more light on the requirements of the new rule and its reporting requirements. Technology providers from OTC- what new technologies they are offering the industry that could disrupt production while at the same time reducing cost are featured in this edition. 2017 International Pipeline, Oil and Gas safety Conference will take place on March 14-17, 2017 at Houston Astro Minute Maid Park- Call for Abstracts and Early Bird Registration Opens.
