Are you interested in using Project Based Learning to revamp your lessons, but aren t sure how to get started? In DIY Project Based Learning for Math and Science, award-winning teacher and Edutopia blogger Heather Wolpert-Gawron makes it fun and easy! Project Based Learning encourages students and teachers alike to abandon their dusty textbooks, and instead embrace a form of curriculum design focused on student engagement, innovation, and creative problem-solving. A leading name in this field, Heather Wolpert-Gawron shares some of her most popular units for Math and Science in this exciting new collection. This book is an essential resource for teachers looking to: \* Create their own project-based learning units. \* Engage student in their education by grounding lessons in real-world problems and encouraging them to develop creative solutions. \* Incorporate role-playing into everyday learning. \* Develop real-world lessons to get students to understand the life-long relevance of what they are learning. \* Assess multiple skills and subject areas in an integrated way. \* Collaborate with teachers across subject areas. \* Test authentic skills and set authentic goals for their students to grow as individuals. Part I of the book features five full units, complete with student samples, targeted rubrics, a checklist to keep students on track, and even Homework Hints. Part II is a mix-and-match section of tools you can use to create your own PBL-aligned lessons. The tools are available as eResources on our website, so you can print and use them in your classroom immediately.
