By Jonathan Dunn

Echo Library, United States, 2008. Paperback. Book Condition: New. 264 x 147 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Time flows in a circular motion, repeating itself in seasons much like a year on earth, each one with the same general events. Because of this, the geological record shows not the immediate past, but the events of the last season or age, making the fossils and formations show what will happen rather than what has happened. Jehu is transported to the end of his age by the mysterious Lord of the Past, and finds himself caught in the middle of a society at war over how to divert the Big Bang that their science foretells. What follows is, as they say, history.
