BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 70 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Work places that produce, use, store, or dispose of hazardous materials are considered to be among the most dangerous in the nation. Workers at these facilities face the potential for injury, chronic illness, or death, which can be caused simply by exposure to certain materials. Several agencies play a role in protecting workplace safety and health. This report discusses coordination of efforts by federal agencies to make the work place safer. GAO found that the Department of Labors Occupational Safety and Health Administration; the Environmental Protection Agency; the Department of the Treasurys Bureau of Alcohol, Tobacco, and Firearms; and the Chemical Safety and Hazard Investigation Board play distinct roles in federal efforts to protect the safety and health of workers at hazardous materials work places. However, these agencies functions partially overlap in several areas. These overlaps cause them to place duplicate requirements on employers. Although there is a good effort on the part of the agencies, more coordination is needed to eliminate the overlaps. This item ships from La Vergne, TN. Paperback.
