Partridge Publishing, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Spirituality is not antagonistic to science. In fact, the world, and mankind in particular, need both science and spirituality for its progress in the right direction. The modern world has relegated spirituality, knowingly or unknowingly, and is experiencing repercussions of this fault. The recent revolution in information and other kinds of technology has brought the world at our doorsteps, but not without ill effects. Mankind was never as vulnerable, as susceptible, to vices as is now. There is no remedy other than to re-enthuse and bring back new generations to spirituality. The essays contained in this book are meant for that.
