## Textbook of Ophthalmology

By H V Nema & Nitin Nema

Jaypee Brothers Medical Publishers (P) Ltd., 2008. Softcover. Condition: New. 5th or later edition.

This is the most established masterwork that provides the best answers to every question that arise in the mind of a student of ophthalmology. An updated textbook describes the rapid developments and advancements in the ophthalmic sciences. It gives a thorough knowledge of ocular anatomy and physiology which is essential for a proper understanding of ophthalmology. The readers would find the description on examination of the eye extremely informative and interesting. It incorporates the routine and advanced clinical methods with diagnostic techniques in ophthalmology and ocular therapeutics. Covers common diseases of the eye in details and their salient features are highlighted with illustrations in colour as well black and white. Explains the significance of preventive approach instead of resorting to curative line of action. Provides information on new entities, diagnostic procedures and therapeutic and surgical modalities of treatment of eye diseases. It is an accurate, consistent, comprehensive book. 1. Anatomy of the Eyeball, 2. Physiology of the Eye, 3. Neurology of Vision, 4. Elementary Optics, 5. Physiological Optics, 6. Errors of Refraction, 7. Determination of the Refraction, 8. Accommodation and its Anomalies, 9. Examination of the Eye,...

### Reviews

*It is one of the most popular publications. It is actually written in easy words instead of confusing. You will like how the author created this book.*

-- **Art Gislason**

*Great eBook and beneficial one. It is packed with wisdom and knowledge. You won't really feel monotony at any time of your respective time (that's what catalogs are for relating to if you check with me).*

-- **Maiya Kozey**
