Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Primary Arithmetic: Parts I and II The bonsall-mercier Arithmetics cover the entire course in arithmetic for the primary and intermediate schools of the Philippine Islands. They aim to exclude cumbrous methods and useless material, and to appeal constantly to the pupil's ability to think. The Primary books of this series are intended to supply the need long felt by both Filipino and American teachers for well graded elementary arithmetics, written in simple language, and making use of material familiar to the Filipino pupil. A judicious combination of the spiral and topical methods has not only made the grading progressive and easy, but has made possible a presentation of essentials which the pupil can readily comprehend. By means of numerous illustrations and problems dealing with subjects in which the pupils have a genuine interest, the school work is connected with real Philippine life.
