

## blogdown: Creating Websites with R Markdown (Paperback)

Filesize: 5.4 MB

### **Reviews**

*It is simple in go through preferable to comprehend. It is full of wisdom and knowledge It is extremely difficult to leave it before concluding, once you begin to read the book.*

*(Leif Predovic)*

## BLOGDOWN: CREATING WEBSITES WITH R MARKDOWN (PAPERBACK)

To download **blogdown: Creating Websites with R Markdown (Paperback)** eBook, please access the link beneath and save the ebook or gain access to other information that are relevant to **BLOGDOWN: CREATING WEBSITES WITH R MARKDOWN (PAPERBACK)** book.

Taylor Francis Inc, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. **blogdown: Creating Websites with R Markdown** provides a practical guide for creating websites using the **blogdown** package in R. In this book, we show you how to use dynamic R Markdown documents to build static websites featuring R code (or other programming languages) with automatically rendered output such as graphics, tables, analysis results, and HTML widgets. The **blogdown** package is also suitable for technical writing with elements such as citations, footnotes, and LaTeX math. This makes **blogdown** an ideal platform for any website designed to communicate information about data science, data analysis, data visualization, or R programming. Note that **blogdown** is not just for blogging or sites about R; it can also be used to create general-purpose websites. By default, **blogdown** uses Hugo, a popular open-source static website generator, which provides a fast and flexible way to build your site content to be shared online. Other website generators like Jekyll and Hexo are also supported. In this book, you will learn how to: Build a website using the **blogdown** package; Create blog posts and other website content as dynamic documents that can be easily edited and updated; Customize Hugo templates to suit your site s needs; Publish your website online; Migrate your existing websites to **blogdown** and Hugo. Yihui Xie is a software engineer at RStudio. He has authored and co-authored several R packages, including knitr, rmarkdown, bookdown, **blogdown**, shiny, xaringan, and animation. He has published two other books, *Dynamic Documents with R* and *knitr* and *bookdown: Authoring Books and Technical Documents with R Markdown*. Amber Thomas is a data journalist and maker at the online publication of visual essays: *The Pudding* ( Her educational background was marine biology, but she has a strong love...
