Reviews

This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Duke University Press. Paperback. Book Condition: new. BRAND NEW, Chineseness Across Borders: Renegotiating Chinese Identities in China and the United States, Andrea Louie, What happens when Chinese American youths travel to mainland China in search of their ancestral roots, only to realise that in many ways they still feel out of place, or when mainland Chinese realise that the lives of the Chinese abroad may not be as good as they had imagined? By considering programmes designed to facilitate interactions between overseas Chinese and their ancestral homelands, Andrea Louie highlights how these programmes not only create opportunities for new connections but also reveal the dis-junctures that now separate Chinese Americans from their ancestral homeland and mainland Chinese from the Chinese abroad. Louie focuses on "In Search of Roots," a program that takes young Chinese American adults of Cantonese descent to visit their ancestral villages in China's Guangdong province. Through ethnographic interviews and observation, Louie examines the experiences of Chinese Americans both during village visits in China and following their participation in the program, which she herself took part in as an intern and researcher. She presents a vivid portrait of two populations who, though connected through family ties generations back, are meeting for the first time in the context of a rapidly changing contemporary China. Louie situates the participants' and hosts' shifting understandings of China and Chineseness within the context of transnational flows of people, media, goods, and money; China's political and economic policies; and the racial and cultural politics of the United States.
