

Setting and Updating Modern Poverty Thresholds

By David Betson

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This research compares median-based thresholds with ones based on the 33rd percentile using Consumer Expenditure Interview Survey (CE) data from 2004 quarter one through 2009 quarter one. Thresholds for reference families are produced using two different approaches: (1) calculating the thresholds based on the expenditure records of reference families composed of two adults with two children; and (2) calculating the thresholds using expenditures from all consumer units participating in the CE, but first converting their expenditures into adult equivalent value using the three-parameter equivalence scale before identifying the median and percentile values. Different updating mechanisms examined include: (1) an annual recalculation of the 33rd percentile of the reference families outlays on FCSU, and (2) changes in the reference families median spending or consumption based on needs. Thresholds, based on spending and consumption concepts to value needs for food, clothing, shelter, and utilities (FCSU), are produced. This item ships from La Vergne, TN. Paperback.
